PROFESSIONAL SUMMARY

Full stack software engineer and data engineer with 7+ years of experience across retail IT, enterprise development, and fintech. Currently at ANGWA PAY, building secure payment gateway systems with integrations for EcoCash, Omari, InnBucks, and ZimSwitch. Previously at OK Zimbabwe as Programming Analyst, developing the Stock Take app, 30+ operational reports, Power BI Reporting Server, and MSSQL databases. Skilled in Java Spring, Python, SQL, Power BI, Angular, and Flutter.

WORK EXPERIENCE

Software Engineer | ANGWA PAY

May 2026 - Present | Harare, Zimbabwe (Hybrid)

- Develop secure, scalable frontend and backend systems for the AngwaPay payment gateway platform.
- Build REST APIs and payment integrations for EcoCash, Omari, InnBucks, and ZimSwitch.
- Implement merchant wallets, transaction processing, and automated status updates.
- Design and maintain SQL databases for payment collection, deposits, withdrawals, and reporting.

Programming Analyst | OK Zimbabwe

Aug 2022 - Apr 2026 | Zimbabwe

- Designed and developed the Stock Take application using Java Spring and Flutter with 30+ data-driven reports.
- Built and maintained Power BI dashboards for sales, order fill rates, and KPI monitoring.
- Configured Power BI Reporting Server and designed MSSQL databases for enterprise reporting.
- Created 30+ custom operational and analytical reports across multiple departments.
- Developed and optimized SQL queries; collaborated with stakeholders on process improvements.

IT Support Specialist | OK Zimbabwe

Feb 2020 - Jul 2022 | Harare, Zimbabwe

- Monitored and maintained retail IT systems for inventory, sales, and customer transactions.
- Installed and configured hardware, software, networks, printers, and user accounts.
- Provided support, system updates, backups, and staff training.

IT Support Specialist | Gain Cash and Carry Zimbabwe

Jan 2019 - Feb 2020 | Harare, Zimbabwe

- Managed help desk tickets and resolved hardware and software issues.
- Conducted OS installations, network troubleshooting, and security audits.
